

# Breast Cancer Survivor Cruise

January 31–February 8, 2014

In 2010, 2011 and 2013 breast cancer survivors, caregivers and friends joined together to celebrate Survivorship on cruises to exotic destinations. Our next cruise sails out of Los Angeles to Cabo San Lucas, Puerto Vallarta and Ensenada, Mexico. These destinations offer great opportunities to see the whales in their migration. Not only do we get to travel to exciting destinations, we get to share the trip with survivors! Join us as we share our stories, celebrate birthdays and bask in the sun far away from winter. If you would like more information about this cruise, our contact information is below. Please note there is limited availability on this cruise. I hope you will be able to join us in 2014 as we embark on another amazing adventure celebrating Survivorship!
